Sub: Newspaper clippings – Notice of the adjourned 26th Annual General Meeting of the members of Infronics Systems Limited (“the Company”)

Dear Sir / Madam,

In furtherance of our disclosure dated September 30, 2026 regarding the adjournment of the 26th Annual General Meeting (“AGM”) for want of quorum under Section 103(2)(a) of the Companies Act, 2013, please find enclosed copies of the newspaper clippings from “Business Standard” (English newspaper) and “Ninadam” (Telugu newspaper), editions dated October 02, 2026, in which the notice of the adjourned AGM has been published pursuant to Section 103(3) of the Companies Act, 2013.

Please note that the adjourned 26th AGM of the Company will be held on Wednesday, October 07, 2026 at 10:00 A.M. (IST) through Video Conferencing (VC) / Other Audio-Visual Means (OAVM), to transact the business set out in the Notice of the AGM dated September 04, 2026.

The aforesaid advertisement is also being made available on the website of the Company at www.infronics.in/investor-relations.

This is for your information and records.

Thanking you,

Yours faithfully,

For **INFRONICS SYSTEMS LIMITED**

GEC-III sector-positive, but execution depends heavily on state utilities

DEVANGSHU DATTA
New Delhi, 1 October

The Cabinet approved the Green Energy Corridor Phase-III (GEC-III) on September 30. This scheme is designed to strengthen the intra-state transmission system (ISTS) and facilitate the transmission of up to 135 gigawatt (GW) of renewable energy (RE) by financial year 2032-33 (FY33).

GEC-III estimates a total project outlay of ₹1.86 trillion — ₹1.36 trillion for INSTS infrastructure, and ₹50,000 crore for 50 gigawatt-hour (GWh) of battery energy storage system (BESS). Capex in GEC-III is in addition to the inter-state transmission system (ISTS) projects awarded under the tariff-based competitive bidding (TBCB) route. GEC-III will have ₹54,080 crore of financial support from the Centre to offset intra-state transmission charges.

Transmission utilities of the states will be the implementing agencies. The scheme envisages that greenfield transmission projects will be implemented through TBCB, under the build-own-operate-maintain (BOOM) model. Brownfield transmission assets will be upgraded. Other network-strengthening projects will be done on a cost-plus basis.

GEC-I & II were designed to support 44 GW of RE evacuation, with 26 GW successfully integrated as of the first half of calendar year 2026 (H1Y26). But as RE capacity has increased to 263 GW and is targeted to exceed 500 GW by 2030, serious bottlenecks are emerging in intra-state transmission while solar and wind capacity builds up. The ISTS is in better shape, and capacity has built up. This has led to stranded RE assets. Moreover, given the intermittent nature of generation, BESS capacity needs to be shored up. While the gaps in INSTS and BESS are obvious to stakeholders, the scheme articulates them, and policy support

Likely beneficiaries

- PGCIL, Adani Energy could see higher order inflows
- GE Vernova, Hitachi Energy, CG Power to benefit
- BESS makers stand to gain from storage push
- Private transmission firms to benefit from TBCB route
- RE equipment makers may see a pick up in project activity

from the Centre should help kick-start activity. GEC-III will strengthen intra-state infrastructure — such as high-voltage lines, substations, and pooling stations — for efficient evacuation from RE-rich places.

The TBCB structure for greenfield transmission projects will create a pipeline for transmission players like Power Grid Corporation of India Ltd (PGCIL) and Adani Energy Solutions.

The creation of 50 GWh of BESS will support higher RE integration by improving grid flexibility, easing congestion, and enabling RE to be used as baseload or during periods of peak demand. The GEC-III could also create additional annual project opportunities of ₹20,000-24,000

crore for PGCIL and Adani Energy. Battery deployment reinforces the opportunity for domestic battery manufacturing, and for designing and executing BESS. Greater policy focus could lead to higher domestic content requirements eventually, although initial imports may be high, especially in batteries. RE developers have faced project delays due to evacuation constraints, which have also led to lower participation in bidding due to transmission-related execution risks. This situation could change if GEC-III is executed well, leading to a boost for RE equipment makers and developers.

A large number of players could benefit from GEC-III. This is positive for transmission utilities like Power Grid, Adani Energy, and Torrent Power, as well as for RE developers like Acme Solar, and JSW Energy. BESS manufacturers like Premier Energies would also benefit from GEC-III. GE Vernova, Hitachi Energy, and CG Power too should benefit by supplying critical transmission equipment. The outlay for GEC-III is considerably higher than that of GEC-I (₹10,141 crore) and GEC-II (₹12,031 crore) put together, and it could lead to faster additions of transmission lines and substations. The central support is around 29 per cent of estimated expenditures.

GEC-I focussed on 24 GW of RE evacuation with central support amounting to about 40 per cent. The deadline was extended from December 2020 to March 2023 due to Covid, and targets were eventually largely achieved. The GEC-II looked to evacuate 20 GW of RE and is 33 per cent funded by the Ministry of New and Renewable Energy. The Centre's policy support is highly useful, but execution depends heavily on state utilities, whose efficiencies can vary.

YOUR MONEY

Invest in target maturity funds to lock in rising yields

HIMALI PATEL

The 10-year government security (Gsec) yield closed at 7.21 per cent on October 1, 2026, its highest level since April 19, 2024. Target maturity funds (TMFs) offer investors a chance to lock in yields, provided their maturity matches their horizon.

Value emerging

Value is emerging in the bond market. "Two- to three-year AAA-rated bonds are offering yields of around 7.5-7.75 per cent," says Dhawal Datta, president and chief investment officer (CIO) — fixed income, Edelweiss Mutual Fund (MF). "Yields near 7.2 per cent with the repo rate at 5.25 per cent imply an unusually wide term premium, making locking in appealing," says Vijay Kuppia, chief executive officer (CEO), InCred Money.

TMFs respond faster to changes in bond yields than bank fixed deposits (FDs).

How they work

TMFs track an index. They hold central and state government securities as well as AAA corpor-

ate bonds maturing around the fund's target date. Investors receive their proceeds on the fund's maturity date.

TMFs have high-quality portfolios and offer predictable returns if held till maturity. Since they replicate an index, they are not subject to fund manager risk.

TMFs versus FDs

Both are taxed at the marginal rate but TMFs gains are capital gains. "Eligible capital losses can be set off against capital gains," says Manish Srivastava, executive director, Anand Rathi Wealth. Interest income from FDs is not eligible for this. TMFs permit anytime redemption at net asset value (NAV), whereas premature

withdrawal from FDs attracts penalties. "TMFs offer exposure to multiple securities, whereas an FD places money with a single institution," says Jyoti Gabajiwala, director, Ventura. In TMFs, tax applies on redemption, allowing pre-tax compounding without tax deducted at source (TDS). Declining interest rates can generate mark-to-market gains.

Key risks

These funds are subject to interim volatility. Returns can differ slightly from yield to maturity (YTM) at entry. "Coupon reinvestment, fund expenses, and cash holdings can create some tracking difference," says Datta.

Choose the right tenure

The one- to three-year segment of the yield curve offers attractive risk-adjusted returns. "This segment has relatively higher secondary market liquidity. It should also help limit volatility if policy rates rise," says Datta.

"Three- to five-year AAA PSU bonds at around 7.90 per cent offer an attractive balance of yield, duration, and credit quality," says Anurag Mittal, president and head — fixed income, UTI Asset

Management Company (AMC). SDIs beyond 10 years offer spreads over many corporate bonds. Srivastava finds current yields attractive for locking in for 10 years. Investors must match a TMF's maturity with their horizon. Choosing on YTM alone becomes an interest-rate bet. For instance, avoid a 10-year fund for a two-year goal. "Its modified duration could be closer to six years, increasing interest-rate risk if yields rise," says Srivastava.

Portfolio composition

Gsecs minimise credit risk and are highly liquid. SDIs offer spreads over Gsecs. AAA PSU bonds typically offer strong credit quality, supported by government ownership. Private AAA bonds are safe but face higher credit and down-grade risks than government-backed securities. When comparing returns of a TMF with those of an FD, compare returns of AAA bond TMFs with those of similarly rated FDs or strong banks. "Comparing small finance bank FD returns with AAA-rated corporate bond yields is inappropriate because their risk profiles differ," says Gabajiwala.

Consider staggered entry

Yields could rise further. "Fiscal pressure, inflation risks from higher oil prices and El Niño could accentuate the pressure on bond yields," says Mittal. Kuppia adds that staggered entry over a few months might make more sense for retail investors.

Sold a property? Here's how to reduce capital gains tax bill

Selling a house or plot can trigger capital gains tax, but taxpayers can reduce the liability by claiming eligible costs and using reinvestment exemptions.

- 1. Claim eligible costs:** Deduct the purchase cost, qualifying improvement expenses and eligible transfer-related expenses.
- 2. Check indexation:** For property acquired before July 23, 2024,

- 4. Consider Section 54EC:** Eligible long-term gains can be invested in specified bonds within the prescribed period for exemption.
- 5. Use Section 54F:** This applies when a 10-year asset other than a residential house is sold and the net sale consideration is reinvested in a residential property. Partial reinvestment gives proportionate exemption.

- 6. Use CGAS:** If reinvestment cannot be completed before the tax return-filing deadline, eligible unutilised gains can generally be deposited in the Capital Gains Accounts Scheme, subject to conditions.
- 7. Follow timelines:** Purchase and construction deadlines vary by exemption. Calculate the tax under available options before choosing a route.

STATE BANK OF INDIA, LUCKNOW CIRCLE, ORGANIZED NATIONWIDE SHRAMDAAN CAMPAIGN "ONE DAY, ONE HOUR, TOGETHER" IN LUCKNOW

As part of the nationwide "Swachhata Hi Seva 2026" campaign, State Bank of India, Lucknow Circle organized Nationwide Shramdaan Campaign "One Day, One Hour, Together" at Laplace Garden in Lucknow on Thursday, Oct 01, 2026. The campaign was started by Shri Dipesh Raj, Chief General Manager, Lucknow Circle under Swachhata Hi Seva 2026. Shri Dipesh Raj, Chief General Manager, Lucknow Circle, led the drive along with senior officers and staff members at Laplace Garden, Lucknow. Apart from Shramdaan activity, many saplings were planted during the Campaign.

Speaking on the occasion, the Chief General Manager said, "Swachhata and environmental sustainability go hand in hand. Through this plantation drive, we aim to contribute to a cleaner, greener and healthier India. SBI is committed to not only financial service but also social responsibility.

The campaign aims to create awareness about cleanliness, reduce single-use plastic and promote sustainable green practices. On this occasion, General Manager (Network-III), Shri Kaushalendra Kumar, General Manager (Network-II), Shri Vimal Kishore, General Manager (Network-II), Shri Rajeev Kumar, & other senior officers were also participated in the campaign and planted the sapling.

PFC ORGANISES "SWACHHATA KE LIYE SHRAMDAAN" CLEANLINESS

Power Finance Corporation Limited (PFC), a Maharatna CPSE under the Ministry of Power, organised a cleanliness drive, "Swachhata Ke Liye Shramdaan," at its office in New Delhi, under the patronage of the Ministry of Power, Government of India. The initiative was undertaken as part of the Government of India's "Ek Ghatna, Ek Din, Ek Saath" movement, which calls upon citizens, government organisations and institutions to dedicate one hour of voluntary labour towards cleanliness and contribute to the vision of Swachh Bharat.

The cleanliness drive was led by Shri Ghanashyam Prasad, Chairperson, CEA, along with Shri Rajesh Kumar Agarwal, Director (Finance), PFC; Shri Piyush Singh, Additional Secretary, Ministry of Power; Shri Diwakar Nath Mishra, Additional Secretary, Ministry of Power; and Dr. D. Saibaba, Additional Secretary, Ministry of Power, along with senior officers from the Ministry of Power and PFC employees.

INDIANOIL'S GUJARAT REFINERY MARKS 60 YEARS OF PIONEERING EXCELLENCE AND NATION-BUILDING

IndianOil's Gujarat Refinery is in its Diamond Jubilee year, marking six decades since its dedication to the nation in 1966. From its early years as a cornerstone of India's indigenous refining capability, Gujarat Refinery has evolved into a major integrated refinery-petrochemicals complex, combining capacity growth with technological innovation, product diversification and an expanding focus on sustainability. Commissioned in 1965 and dedicated to the nation on 18 October 1966, Gujarat Refinery has grown from an initial capacity of 2 MMTPA to 13.7 MMTPA, with capacity being further expanded to 18 MMTPA under the ongoing LuPech Project. The refinery expansion took place through successive rounds of debottlenecking, technology upgradation, and capacity augmentation. Over six decades, the refinery has consistently been at the forefront of technological advancements, pioneering many 'firsts' in the Indian refining sector — including the nation's first Fluidized Catalytic Cracking Unit (FCCU), Hydrocracker Unit (HCU), Diesel Hydro Desulfurization Unit (DHDS) as well as the first petrochemical plant of IndianOil for producing Linear Alkyl Benzene marking IndianOil's big-ticket entry into Petrochemicals.

GUJARAT ENERGY BAGS PRESTIGIOUS NATIONAL-LEVEL AWARDS AT PNGRB FOUNDATION DAY

Gujarat Energy Limited — India's Largest City Gas Distribution Company and India's Leading Gas Trading Company has bagged two prestigious national-level awards in recognition of its excellence, innovation, and contribution to the industry at the Foundation Day Ceremony of the PNGRB graced by Hon'ble Minister of Petroleum & Natural Gas Shri Hardeep Singh Puri and various other dignitaries.

The awards were presented at 20th Foundation Day of Petroleum and Natural Gas Regulatory Board (PNGRB) held in New Delhi, bringing national recognition to the company's continued efforts in delivering excellence and creating a meaningful impact in its field.

Gujarat Energy won the Special Jury Award for Top Target Achiever Geographical Area for the Narmada (Raippla) District GA as also the Award for Best Performing GA During PNG Drive 2.0 for its Bhatinda District GA.

The Awards were received by Smt. Avantika Singh Aulakh, IAS Managing Director of GEL and the team. The recognition reinforces the industry leader position of Gujarat Energy in the City Gas Distribution Segment.

NOTICE OF THE ADJOURNED 26TH ANNUAL GENERAL MEETING

NOTICE is hereby given, pursuant to Section 103(3) of the Companies Act, 2013 ("the Act"), that the adjourned 26th Annual General Meeting ("AGM") of Infronics Systems Limited will be held on **Wednesday, October 07, 2026 at 10:00 A.M. (IST)** through Video Conferencing / Other Audio-Visual Means ("VC/OAVM"), to transact the business set out in the Notice dated September 04, 2026 ("Original Notice").

The 26th AGM was scheduled to be convened on Wednesday, September 30, 2026 at 10:00 A.M. (IST) through VC/OAVM. However, due to a technical issue with the VC/OAVM joining link provided by the Registrar and Share Transfer Agent of the Company, it was subsequently discovered that the Members were unable to access the AGM through the VC/OAVM facility, and accordingly it was determined that the requisite quorum was not present. For the purpose of the requisite quorum, the AGM stood adjourned in terms of Section 103(2)(a) of the Act.

The Notice of the adjourned AGM has been sent by e-mail to the Members whose e-mail addresses are registered with the Company / Depositories. The Original Notice and the Annual Report 2025-26 shall be read as part of it. All these documents are available at www.infronics.in/investor-relations, www.bseindia.com and www.evotingindia.com.

Voting: The cut-off date remains Wednesday, September 23, 2026. Votes cast through remote e-voting (September 27-29, 2026) remain valid and remote e-voting will not be re-opened. Votes, if any, cast through the e-voting facility on September 30, 2026 shall not be taken into account. Members who have not voted through remote e-voting may vote through the CDSL e-voting system during the adjourned AGM and up to 15 minutes after its conclusion.

Joining: The VC/OAVM link will be available against the EVSN of the Company after login at www.evotingindia.com, as per the Original Notice. For assistance, contact the RTA, Mrs. Aarthi Consultants Private Limited, at info@arthiconsultants.com / +91 79891 15055, or CDSL at helpdesk.evoting@cdslindia.com / 1800 21 09911.

DECLARATION OF THE RESULTS OF POSTAL BALLOT

Pursuant to Section 108 and Section 110 of the Companies Act, 2013 ("the Act") read with Rule 20 and Rule 22 of the Companies (Management and Administration) Rules, 2014, approval of the Members of the Company by way of Special Resolution was sought through Postal Ballot vide Notice dated August 31, 2026 for below mentioned resolutions:

- 1. APPOINTMENT OF MR. HAYATO KASHIWAGI (DIN: 10953592) AS MANAGING DIRECTOR OF THE COMPANY.** (Subject to the requisite approval of Central Government).
- 2. APPOINTMENT OF MR. PRAVEEN KUMAR ASTHANA (DIN: 06830096) AS THE WHOLE TIME DIRECTOR OF THE COMPANY.**

Based on the Scrutinizer's Report dated September 30, 2026, the Results of Postal Ballot, as declared, were as under:

Particulars	Numbers
Number of valid Electronic Votes received	6619861
Votes in favour of the resolution	6619545
Votes against the resolution	316

RESOLUTION NO: 2

Particulars	Numbers
Number of valid Electronic Votes received	6619861
Votes in favour of the resolution	6619528
Votes against the resolution	333

Accordingly, both the Resolution as set out in the Postal Ballot Notice dated August 31, 2026 were passed by Members with the majority of 99.9965% votes cast in favour of the resolution.

Notice with respect to Special Window for re-lodgement of transfer requests of physical shares

Pursuant to SEBI Circular No. HO/38/13/11(2)/2026-M/RS-D-POD/3750/2026, dated January 30, 2026, the Company is pleased to offer one time special window for Physical Shareholders to submit re-lodgement requests for the transfer of shares. The Special Window will remain open from February 05, 2026 to February 04, 2027 and is applicable to cases where original share transfer requests were lodged prior to April 01, 2018 and were returned/unattended or rejected due to deficiencies in documentation, process or any other reason. The shares re-lodged for transfer will be processed only in dematerialized form during this window. Eligible shareholders may submit their transfer requests along with the requisite documents to the Company's Registrar and Share Transfer Agent (RTA) at MUFG Intra India Private Limited, Rasal Court, 5th Floor, 20, Sir R. N. Mukherjee Road, Kolkata-70001, or for any query may reach out to RTA via Phone at 033-69060200 or e-mail at investor.helpdesk@infronics.com or alternatively they can write their queries at meghna.saini@dic.co.in.
